Statement of fees and other costs ³	High 4 to less than 6 \$375.00 per year Fees and other costs for a member with a \$50,000 balance throughout the year.

1 Return target based on BlackRock Investment Institute's Capital Market Assumptions over the 10-year time horizon. Growth in CPI of 3% p.a. is assumed based on the upper band of the Reserve Bank of Australia (RBA) target.

2 Level of investment risk

The level of investment risk is the Trustee's estimate of the risk of negative investment returns over a 20-year period. It is not a complete assessment of all forms of investment risk. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than what a member requires to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return. You should ensure you are comfortable with the risk and potential losses associated with your investment options. The risk measures are calculated in line with the guidelines in the Financial Services Council (FSC) Guidance on Standard Risk Measure Guidance Paper for Trustees' dated July 2011. This rating is based on the asset allocation benchmark of the fund at the date of the dashboard and does not take into account future movements of this benchmark.

3 Statement of fees and costs

This amount includes investment fees and costs, administration fees and costs and transaction costs, but excludes buy-sell spreads, activity fees, insurance fees and costs.
